Rivers & water bodies: Nepal Watercourses (1:25K-50K), Govt. of Nepal, via [OCHA/HDX](#) · Map prepared September 2026

Profile A - A' · 81.79°E, South → North

Profile B - B' · 82.87°E, South → North

Karnali is Nepal's largest and most sparsely populated province, an immense, rugged highland spanning the Mid-Hills of Surkhet and Jumla up to the Kanjiroba Himal (6,883 m) and the arid trans-Himalayan plateaus of Dolpa and Mugu along the Tibetan border, home to Rara Lake, Nepal's largest lake.
