

ELEVATION & RELIEF MAP OF KOSHI PROVINCE

Eastern Nepal · SRTM 1 Arc-Second Hillshade & Hypsometric Tint

Elevation (meters above sea level) · max 8,399 m

Nepal — Province Location

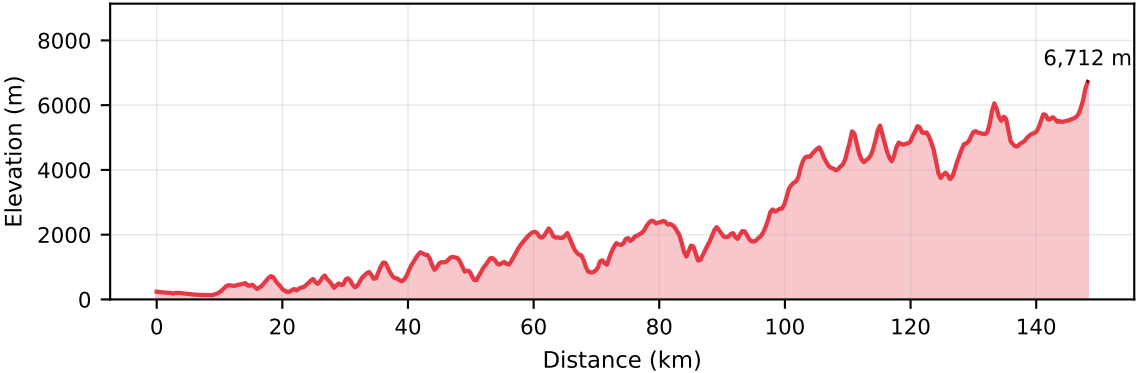

Lake / Pond

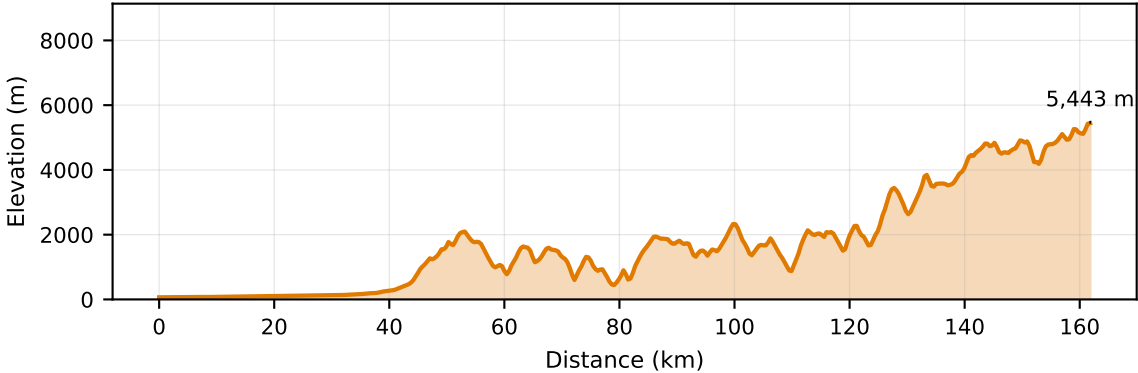

Data source: SRTM 1 Arc-Second Global DEM, NASA/USGS (resampled ≈ 300 m) · Administrative boundary: MoFAGA, via [opentechcommunity/map-of-nepal](#) (CC BY 4.0) · Projection: UTM Zone 45N (EPSG:32645)
Rivers & water bodies: Nepal Watercourses (1:25K-50K), Govt. of Nepal, via [OCHA/HDX](#) · Map prepared September 2026

Profile A - A' · 86.77°E, South → North

Profile B - B' · 87.59°E, South → North

Koshi Province spans the full elevation gradient of eastern Nepal — from the Terai lowlands (~ 60 m) along the Indian border to the world's highest terrain along the Tibetan frontier, including Mount Everest / Sagarmatha (8,849 m, Solukhumbu) and Kanchenjunga (8,586 m, Taplejung).
