Rivers & water bodies: Nepal Watercourses (1:25K-50K), Govt. of Nepal, via [OCHA/HDX](#) · Map prepared September 2026

Profile A - A' · 80.59°E, South → North

Profile B - B' · 81.29°E, South → North

Sudurpashchim, Nepal's far-western province, rises from the Terai near Dhangadhi and Mahendranagar through the Chure and Mahabharat ranges to the remote Api (7,132 m) and Saipal (7,031 m) Himal along the Tibetan and Indian (Uttarakhand) borders — among the least-visited high mountains in Nepal.
